

## technical datasheet

## **General description**

Tecbond 239 is an exceptionally clear economic general purpose adhesive. It is high in viscosity and has a medium open time. It provides good bonds on wood, paper, card, and many other surfaces. Being high viscosity it is an excellent gap filler and ideal on many fabrics and foams that are porous.

## **Technical characteristics**

Adhesive type: Synthetic polymer based hotmelt

Colour: Clear Molten tack: Medium

	7mm	12mm	15mm	43mm	
Form	7.0mm x 150mm	11.5mm x 300mm	15mm x 300mm	43mm x 43mm	
Sticks per kilo (approx)	160	34	20	17	
Carton quantity	14kg	5kg	5kg	10kg	
Pallet weight:	500kg	500kg	500kg	500kg	
Suggested application	195°C	195°C	195°C	195°C	
Brookfield viscosity (POW-12-VISC) spindle 27	18,000 cps	18,000 cps	18,000 cps	18,000 cps	
Ring & ball softening point (ASTM E28)	84°C	84°C	84°C	84°C	
Heat resistance (BS5350 Part	70°C	70°C	70°C	70°C	
Open time	Medium	Medium	Medium	Medium	
Low temperature flexibility (tg)	-30°C	-30°C	-30°C	-30°C	

F.D.A. approved. All the constituent parts of this adhesive have been approved by the American F.D.A. under C.F.R. 21.175.105 (adhesives) (subject to limitations).

Storage Store in a clean dry place at temperatures between 5°C and 30°C with boxes closed. Do not expose to direct sunlight or

localised heat sources such as radiators or hot pipes.

**Removal of glue** Assembled components can be separated by heating assembly to a temperature slightly above the heat resistance figure.

EVA & Polypropylene: Residues of EVA and polypropylene based hotmelts can be removed from components with white spirit.

Polyamide: Residues of polyamide based hotmelt can be removed from components with acetone.

PUR: Prior to cross linking adhesive can be removed with white spirit or ketone. Once fully cross linked the adhesive cannot be easily

removed.

Please note The information contained on this data sheet is for guidance only. It is the result of careful laboratory evaluations by trained and

qualified staff using British Standard or similar test methods. However, no warranty is expressed or implied regarding the accuracy of the data or the suitability of the adhesive for any specific purpose. In every case, we strongly recommend that the user shall make their own test to determine to their own satisfaction the suitability of the adhesive for their particular purpose. Neither the seller nor manufacturer shall be liable for any injury, loss, damage, direct or consequential arising out of the use or inability to use the product. Further information is always available to help solve your adhesive problems. Should you require

any further information on our adhesives please contact your nearest distributor.
